

Stephen T. Washburn

Steve Washburn, CEO, has been with ENVIRON for much of its 25-year history. He has served as Managing Principal of the firm's Northern California operations and as a member of ENVIRON's Board of Directors. Steve has more than 20 years of experience in environmental science and engineering, with special emphasis on risk assessment and risk-based remediation. Specific areas of expertise include contaminant fate and transport, exposure assessment, risk assessment, risk-based evaluation and remediation of hazardous waste and industrial sites, and hazardous waste management. He has also provided litigation support and acted as an expert witness on matters related to exposure assessment, risk assessment, and site remediation.

Mr. Washburn has been designated by the US Army Environmental Center as a Subject Matter Expert (SME) in the areas of risk assessment and decision analysis, and was one of nine scientists selected by the American Society for Testing and Materials (ASTM) to provide training on Risk-Based Corrective Action (RBCA) to state regulatory agencies. Mr. Washburn has served on several EPA Expert Peer Review Panels, and was a member of the Risk Assessment Subcommittee of the Pennsylvania Science Advisory Board, which was established to encourage brownfields development.

Mr. Washburn earned an MS in Chemical Engineering from the Massachusetts Institute of Technology in 1982 and a BSE in Chemical Engineering from Princeton University in 1980.
