Healthcare Facility and Cleanroom Monitoring

AEMTEK, INC.

SARS-CoV-2 Testing

NEGATIVE RESULTS

POSITIVE RESULTS

C.D.C. Closes Some Offices Over Bacteria Discovery

The move highlights the risk of Legionnaires' disease outbreaks when buildings are reopened after coronavirus lockdowns.

Legionella Testing

AEMTEK's provides a complete set of solutions for your *Legionella* testing needs. We offer screening testing, species identification and serotyping.

AEMTEK's *Legionella* testing methods are AIHA EMLAP accredited and CDC-ELITE certified, so you can feel confident in your results.

AEMTEK makes sample collection easy by providing a swab or sampling-bottle with the required neutralizer already inside.

We are here to help!
