

**Kirk A. Phillips** is a Managing Principal at LJB Inc., an engineering firm where he manages a third of the company as the practice leader for the Health, Safety and Environmental which provides risk assessments and engineering solutions externally for a wide range of clients in all markets to include many of the Fortune 100 and Fortune 500 companies. Prior to his current position, Kirk served in the Air Force as a Bioenvironmental Engineer for over 28 years and retired as a Colonel. For the last 8 years of his career, he served as a senior executive where he first developed the overarching environmental, safety and occupational health (ESOH) policy for the Air Force as the senior officer for ESOH in the Air Force Secretariat. He

He then worked for the Air Force Surgeon General, where he led the Bioenvironmental Engineering career field and directed a worldwide staff of 1,900 Industrial Hygienists, Engineers, Environmental Professionals, Health Physicists, Medical Architects, and technicians to deliver the industrial hygiene and occupational and environmental health programs Air Force-wide. While at the Surgeon General's office, Kirk developed the Total Exposure Health (TEH) Framework and established it as a strategic objective of the Surgeon General. He was a Certified Industrial Hygienist from 1989 to 2009 when he became a full-time strategic thinker and manager in industrial hygiene. He has a BS in Aerospace Engineering from the University of Missouri (Rolla), a MS in Engineering and Environmental Management from the Air Force Institute of Technology (AFIT) (Ohio), and completed Air War College. Kirk is a member of the American Industrial Hygiene Association (AIHA), where he is the chair of the Total Worker Health Task Force Steering Committee and a member of the Actions Committee. He is also a member of the American Society of Safety Professionals, where he is a member of the Governmental Affairs Committee and the TWH Task Force. Kirk served as the provost for the Industrial Hygiene and Environmental Engineering MS Degrees at AFIT from 2014-2017. Kirk has been the keynote speaker at the Toxicology and Risk Assessment Conference, the AIHA Fall Conference on Leadership and Management and the American Industrial Hygiene Conference and Exposition. Kirk speaks regularly on TEH and is a thought leader in the future of exposure science.
